Park at the recreation ground. There are six stiles on the walk, all are passable by dogs.

Turn right at the road and as it goes downhill take a path on the left. Follow the path through the trees, and down the field edge turning right at the bottom. Just before the fence on the right ends turn left through a copse, Bulldean Copse, and follow a path across the field to a finger post. Bear left and follow a green track.

At a tee junction turn right along the field edge and continue to a tarmacked drive. Cross this and continue to another tee junction. Take the green track downhill to the left, then uphill and through a gap to emerge at the field edge. Turn right and follow the field edge to a track. Turn right and follow the track to a road, Baybridge Lane.

Cross the road and go over a stile. Continue ahead downhill to cross two more stiles and another onto a track. Turn left. Just past the house bear left over a stile and follow a well-defined path to a double stile. Cross the stile and continue ahead to the far left corner. Follow the path down onto a road. Turn left.

Where it joins the road ahead, Baybridge Lane, turn left. Continue, passing where you crossed earlier and cottages on the right. Continue and just after Green Hill Farm bear right onto a footpath. After short distance it turns left and then right. Follow this path, ignoring the first path to the right, until it turns right through a gap in the hedge onto a gallop. Turn left and keep close to the hedge. After a short distance, at a waymark post on the left, turn right onto a path across the field to a waymark post. Cross a tarmacked drive and continue to a bungalow and on to the road.

Turn right, then right at a field bar gate and keep right on a wide grassed field edge. Follow this until the start of the fence on the left and then retrace the route to the recreation ground.
